

## **Components used in carbon dioxide refrigeration systems**

Carbon dioxide (CO<sub>2</sub>) is an excellent refrigerant that is used by many companies in a wide range of applications.

Please find an overview of the eurammon members who offer the required components for refrigeration systems with CO<sub>2</sub> in our “Product Directory” at <http://www.eurammon.com/productdirectory/list>.

In case of doubt, the German-language original should be consulted as the authoritative text.
